

Woolworths Chancellor Park upgrade commences for a better shopping experience

Wednesday, 3 February 2016: Shoppers in the Sippy Downs area will soon enjoy a revamped Woolworths supermarket as work on a \$6.7 million, four month extension and refurbishment gets underway.

The upgrades to the store in the Chancellor Park Marketplace Shopping Centre will provide enhanced choice and convenience for customers including improvements to the delicatessen, bakery, seafood, and fruit & vegetables department. Furthermore, the extension will increase the store size by more than 680 square metres.

The store will have new LED lighting, and the new aisle signage throughout the supermarket will help shoppers get around the store.

The supermarket entrance will be redesigned to allow easier customer access, and the layout for the checkout area has been improved, and additional traditional and self-service checkouts installed to ensure customers can pay for their items quickly and get on with their day.

Woolworths Chancellor Park Store Manager, Kaine Marra, said the store is proud of the role it plays in the local community.

“We are delighted our local Woolies will be upgraded to create one of Australia’s most modern supermarkets. We would like to apologise for any inconvenience the revamp may cause. The investment will deliver a supermarket local residents will enjoy shopping in.

“These improvements will showcase our fresh Australian fruit, vegetables and meat, inspiring meal ideas, a wide choice of healthy options and a huge range of grocery items at great prices,” Kaine said.

Throughout the revamp customers can continue to shop at the store during the usual trading hours of 8am to 9pm Monday to Friday, 9am to 5pm Saturday, and 9am to 6pm Sunday.

The investment is part of a wider refurbishment program of Woolworths stores across the country.
